Tonewheel General Hospital is delighted to bring its signature, personalized service to you through virtual house calls.

You have a number of different options to choose from, including a real-time scheduled consultation with Dr. Drawbar via the likes of FaceTime and Skype – as well as the opportunity to send in photographs and/or videos for diagnosis; phone calls are also welcome. All virtual house calls include a prescribed course of supervised treatment as well as follow-up support.

The fee for a virtual house call is $15 for the first ten minutes – then $1 for every minute after that. Call the Hospital at 800-867-5926 to discuss your consultation options and schedule an appointment today!
